IBM Lotus and WebSphere Portal Business Solution Catalog

Our new [IBM Lotus and WebSphere Portal Business Solution Catalog](#) is the definitive destination to explore, discover and implement exciting solutions on top of our portfolio. This new catalog opens up the community of solution providers to embrace business partners (ISVs Independent Software Vendors, and Integrators), IBM, and the community at large. That broader community view brings in countless of independent developers, college students and others who are passionate about the Lotus and WebSphere Portal portfolio and want to leverage that portfolio to address specific business challenges. If you haven't tried out the catalog be sure to give it a look. You'll discover some exciting solutions for the Lotus and WebSphere Portal family and you'll see one of the best XPages application in action (an exciting bonus!). [Go to the Catalog](#)

Lotus Technical Information & Education Community

What technical information do YOU use to get the most out of Lotus and WebSphere Portal products? Product documentation? Wiki articles? Redbooks?

Introduction

IBM Lotus Connections is social software for business. It empowers you to develop, nurture, and remain in contact with a network of your colleagues, respond quickly to business opportunities by calling upon the expertise in your network, and discuss and refine new creative ideas with communities of coworkers and customers.

Click the links for more details on each service.

New Entry

DNUG, 15.-17.11.2010
Ingo Karge | Oct 13 | 14 visits

Vom 15.11. - 17.11.2010 findet die Herbsttagung der DNUG in Frankfurt am Main statt. In diesem Jahr gibt es erstmalig auch einen Hochschultag mit vielen interessanten Angeboten speziell für Studenten. Wir haben die Möglichkeit unsere Student Agents kostenfrei teilnehmen zu lassen - dies wäre doch eine gute Gelegenheit uns alle zu treffen und kennenzulernen. Also, wer hat Interesse und kann teilnehmen ? Bitte per Kommentar antworten u./o. Mail an mich schicken.
